Suburban	58%	6-10 home visitors	26%
Urban	55%	11-20 home visitors	18%
Frontier	6%	>= 21 home visitors	7%
Using MIS System		Average Caseload of Home Visitors	
	95%	≤10 families	11%
MIS System Specific or Shared		11 – 15 families	33%
Shared with other programs	53%	16 – 20 families	32%
Specific to program	32%	>20 families	24%
Not sure	15%	Involved in Prior Research	
			54%

¹ By absolute number of models

² Percentages can total more than 100% because respondents could select more than one answer

³ Other evidence-based program models: ABC, Child First, Family Check-Up, Family Connects, Family Spirit, HANDS, HIPPY, MECOSH, MIHOW, MIHP, and PFR

⁴ Non evidence-based program models: Babies First, Baby TALK, BabyCare, CHIP, Early Years Program, First Born & More, Frog Street-Love & Learn, Head Start, Healthy Start, Maternal Child Field Nursing, Mothers & Babies, Nurse Collaboration Program, Nurses for Newborns, Nurturing Parenting Program, Partners for a Healthy Baby, TIES and Triple P

⁵ Capacity could be counted as # of families or # children, majority indicated # of families; therefore, for this question only, n is # families, and is revised (n=215)

⁶ Average percentage across all programs
