

## HARC Members: Home Visiting Network Leads

There are 85 leaders of home visiting networks enrolled in the HARC PBRN as of October 2024. Network leads can be MIECHV state leads, territory or tribal leads, or leaders of other types of networks of programs. Below is a summary of the characteristics of those networks as reported by their network leads.

### Characteristics of Home Visiting Networks (N=85)

Network Leads come from 38 states, 1 US territory, and 2 Tribal nations. They represent 34 different home visiting program models, 17 of which are evidence based<sup>1</sup>.

Characteristics	%	Characteristics	%
<b><i>HV Model</i></b>		<b><i>Type of Communities Served<sup>4</sup></i></b>	
Parents as Teachers	62%	Urban	85%
Healthy Families America	60%	Rural	81%
