

## Home Visiting Applied Research Collaborative (HARC) Study Proposal Template

- 1) Your Name:
- 2) Institute/Organization:
- 3) Your role with Institute/Organization
- 4) Contact Information
  - a. Email
  - b. Phone
- 5) Names of Co-Investigators:
- 6) Study Title:

### Proposed Study Design

- 7) Background (500 words or less)
  - a. Clearly state the research questions or study aims
  - b. How will this study contribute to the larger home visiting field?
  - c. To what extent does this study address issues around reducing inequities?
  - d. Does this proposed study activity fit within a larger study? If so, please describe.
- 8) Method (500 words or less)
  - a. Describe the design of your study (e.g., quantitative, qualitative, mixed-method)
  - b. What are your data collection methods (e.g., survey, observation, direct assessment)
  - c. What specific measures do you propose to use?
  - d. Target Participants and Proposed Sample Size (# of programs/home visitors/family participants)
  - e. Proposed Analysis Plan

- 9) Expected Participant Burden (300 words or less)
  - a. What are participants expected to do?
  - b. How much time will it take to collect the data from each participant?
  - c. What other burdens are expected of the participating home visiting programs?
- 10) Expected Timeline (*How long will it take to collect the data once you begin?*)
  - a. Describe or provide a chart of the proposed timeline
  - b. Where are you in the process of receiving funding for this project?
  - c. Where are you in the process of human subjects review for this study?

### **Bio**

Please attach short (1-3 page) vitas or bios (200 words or less) for those listed on page 1 so that we have a better understanding of your backgrounds.

**Submit completed proposal to Kay O'Neill at [koneill@jhu.edu](mailto:koneill@jhu.edu).**

**Questions? Contact Kay O'Neill or Jon Korfmacher, Ph.D. (HARC Council Chair) at [jkorfmacher@chapinhall.org](mailto:jkorfmacher@chapinhall.org)**
